

Inspire a New Generation!

Welcome to the
CoronaQuest 16-day
Challenge!

Welcome!

CoronaQuest is a 16-day challenge with the goal of fostering critical thinking and scientific exploration. You may find it a bit confusing in the beginning because there are few instructions and no rules. The sky is the limit! This is intentional. The goal of this challenge is not to get a right answer or come to a certain conclusion. The real goal is to get students thinking and asking questions. We also want to teach them how to effectively use open ended and close ended questioning.

The following outline will get you started on your journey. If you get lost along the way, we have guides ready to assist you. Email any questions you have to: melinda@gravitaspublishations.com. She is ready to shake your compass and get you back on the path of discovery.

The following instructions are for the daily images. Each of the 16 days has 1 assigned image. That image is the only "clue" you get for the day. Use that image as the starting point to ask questions. One question that you ask will become your subject of exploration for the day. Each day complete the following:

DAILY CHALLENGE INSTRUCTIONS

RULES:

- Ask as many questions as you can.
- Do not stop to discuss, judge, or answer.
- Record your questions exactly as stated.
- Change any statements into questions.

DEFINITIONS:

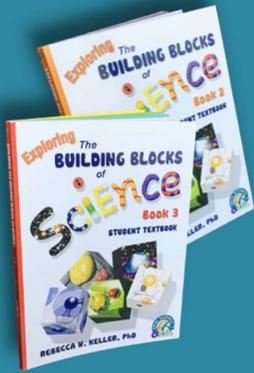

Closed-ended: Answered with "yes," "no," or one word
Open-ended:
Requires a longer explanation

INSTRUCTIONS:

1. Look at the Focus Image
2. Produce your questions. Follow the rules. Number your questions
3. Improve your questions. Categorize questions as Closed-ended or Open-ended. Change questions from one type to another
4. Strategize. Prioritize your questions. Pick one of the top 3 to explore
5. Hands-On. Do a hands-on project

Inspire a New Generation!

Welcome to the
CoronaQuest 16-day
Challenge!

6. Reflect/Share.

PROJECT:

- Do an experiment.
- Write a report.
- Create an art project.
- Make a photo collage.

The daily challenges can be found in our blog section:

<https://gravitaspublishations.com/blog/>

Begin at day 1 of the quest and proceed to day 16.

Good luck and happy questing!

Kind regards,
Rebecca W. Keller, Ph.D
CEO and Author
Gravitas Publications, Inc.
